(User Research) (Prototyping) (User Testing) (Redesign)

(Team player) (Creative thinking) (Communication)

ABOUT ME

International student in Human-Computer Interaction, I follow my passion for user experience design around Europe. With analytical skills, creative thinking, a curious and open mind, and a sunny personality, I know how to motivate myself or a team to achieve greater results. With a special interest for for user experience research and design, I am aiming for a career, where I can develop my professional and personal skills, have a positive impact on the future and take over responsabilities to achieve tangible results.

WORK EXPERIENCE
